- Transport

Profile

Peter leads the Regulatory Finance practice at Oxera. He is an expert in financial economics, and helps clients tackle strategic challenges in regulation and competition policy.

Peter has extensive experience in advising companies, regulators, and investors on cost of capital and profitability analysis. He has directed projects on regulatory price controls and competition investigations in the electricity, gas, water, telecoms, postal services, airports, air traffic control, and rail sectors. He has provided expert testimony on cost of capital in front of the UK Competition and Markets Authority (CMA) and is listed in the Who's Who Legal guide to leading economics and financial experts in the energy sector.

Peter has over 15 years' experience of training clients in the economics of regulation, including chairing the Oxera Utility Finance course for many years. He continues to teach regularly on the Utility Finance and Utility Regulation courses, as well as delivering guest lectures to MBA students at the London Business School. Peter is also a member of the European Corporate Governance Institute (ECGI) Blog advisory board.

Selected professional experience

- Advising energy network companies on the RIIO-3 price control review by Ofgem (2023–)
- Commercial and regulatory support to investors in an electricity networks transaction (2023)
