Expertise

- Antitrust
- Antitrust Damages
- Mergers

Sectors

- Energy
- Retail and Consumer
- Telecoms, Media and Technology
- Transport

Profile

Beatrice is part of Oxera's Competition team. She joined Oxera in 2018 after completing her Master's degree in Economics in Italy. During her studies, she focused on industrial organisation, microeconomics and econometrics. She has worked on a wide range of competition issues in a variety of sectors, including merger investigations by both the European Commission and the UK Competition and Markets Authority (CMA), follow-on antitrust damages and abuse of dominance.

Prior to joining Oxera, Beatrice worked for the Directorate-General for Competition of the European Commission. As part of the Chief Economist Team, she supported the quantitative analysis of a merger case in the agro-chemistry sector.

Selected professional experience

- Advice to a company in the telecommunications sector in relation to FRAND licensing of its 2G, 3G and 4G standard essential patents (2020–)
- Supported a national authority in the definition of the public service obligation regime for air transportation services (2020–)
- Supported Bottomline, a financial services provider, in the successful clearance of its acquisition of Experian Payments Gateway by the CMA at Phase 2 (2019–20)

- Undertaking econometric analysis for purchasers of cathode ray tubes (CRTs) in relation to their follow-on damages claims against the global CRT cartel (2019)
- Undertaking econometric analysis in the context of advising a universal service provider of postal services in assessing the financial unfairness of the burden resulting from the net cost of the universal service obligation (2019)
- Advice to a manufacturer of building products in the context of an investigation by the CMA into an alleged breach of Article 101 TFEU (2018–)
- Supporting the Oxera team in advising a company active in the food industry, in the context of a merger cleared in Phase 1 by the CMA (2018)

Qualifications

- MSc Economic and Social Sciences, Bocconi University, Italy
- BSc Economic and Social Sciences, Bocconi University, Italy
