- Infrastructure
- Public Policy and Impact Assessment
- Regulation
- Strategy

Sectors

- Energy
- Transport
- Water

Profile

Alessandro is a member of Oxera's Regulation and Market Design team. His area of expertise is the economic regulation of the infrastructure and utilities sectors, including energy networks and transport. Alessandro has developed regulatory financial models and provided regulatory support in several due diligence cases regarding regulated assets in Italy and more widely in Europe.

Prior to joining Oxera, Alessandro completed a double Masters degree in Economics at the Université catholique de Louvain and the University of Milan, focusing on industrial organisation, regulation and competition economics.

Selected professional experience

- Quantification of COVID-19 damages for a number of Italian airports (2021)
- Construction of a performance benchmarking dashboard for a large rail network operator (2021)
- Regulatory due diligence support for the acquisition of a regulated gas asset in Italy (2021)
- Regulatory due diligence support for the acquisition of a target UK water company, focusing on the impact of the regulatory incentives on the valuation (2021)
- Cost and regulatory assessment focusing on a toll road operator (2021)
- Regulatory advice to a European electricity transmission system operator (TSO) (2021)
- Support in the consultation process on the cost of capital for a European electricity TSO (2021)

- Regulatory due diligence support for the acquisition of a European gas TSO by a major international investor (2020)
- Regulatory due diligence support for the acquisition of stakes in Italian motorway assets by a major European investor (2020)
- Regulatory due diligence support for the acquisition of an Italian airport by a major European investor (2020)
- Impact assessment analysis in relation to decarbonisation policy issues for the Government of Jersey (2019–20)
- Research on international best practice in auction design for a European energy regulator (2019)

Qualifications

- MSc Economics, double degree, Université catholique de Louvain, Belgium, and University of Milan, Italy
- BSc Economics, University of Calabria, Italy
