## Expertise

- Performance, Productive and Efficiency
- Transaction Advice
- Antitrust
- Regulation

## Sectors

- Water
- Energy

## Profile

Guillaume is a member of Oxera's Regulation and Market Design team. He specialises in the economic regulation of infrastructure and utilities.

He joined Oxera in 2021, after completing a Master's degree in Economics of Markets & Organizations at Toulouse School of Economics, and a double Bachelor's degree in Economics and Mathematics and Computer Science. During his studies, he specialised in microeconomics, game theory, regulation and competition economics, and spent a year at the University of Reading attending competition and regulation courses. He also spent a year teaching microeconomics to undergraduate students in Economics and Law at the University of Toulouse Capitole.

Guillaume provides advice to water and energy companies in the context of cost assessment modelling, and has undertaken several regulatory due diligence assessments. He writes regularly for Oxera's Agenda publication.

## Selected professional experience

- Advice on the acquisition of a stake in Northumbrian Water (2022)
- Advice to SSE on the divestment of a stake in its electricity transmission business (2022)
- Market power assessment and advice on regulatory issues to a French airport (2022)
- Provided support to a sports betting company in its state aid procedure with the European Commission (2021–22)

- Economic analysis of alleged coordinated behaviour between European beverage producers (2021–22)
- Ongoing work advising several UK water companies in the context of cost-assessment modelling in preparation for Ofwat's PR24 price review (2021–)
- Advice to several electricity distribution companies on a range of regulatory issues as part of Ofgem's RIIO-ED2 price control (2021–)
- Economic assessment of the merger between South West Water and Bristol Water (2021)
- Assessment of the relevance of agreements among firms to promote sustainable consumption and production ('green' cartels), and to what extent climate change and sustainability should be considered in competition law (2021–)
- Due diligence advice to a large England and Wales water and sewerage company (2021)
