

Ilaria Noviello

Consultant

Email: Ilaria.Noviello@oxera.com

Tel: +44 (0) 20 7776 6608

Languages: English, Italian and French

Expertise

- Antitrust
- Antitrust Damages
- Mergers

Sectors

- Digital
- Telecoms, Media and Technology

Profile

Ilaria is part of Oxera's Competition team and has worked on various competition cases, including antitrust litigations, mergers and arbitrations across sectors such as telecoms, pharmaceuticals and the betting industry.

Ilaria joined Oxera in November 2021 after completing a Master's degree in Competition and Market Regulation at the Barcelona School of Economics, and a Bachelor's degree in International Economics and Finance at Bocconi University. During her studies, she specialised in microeconomics, industrial organisation and the economics of competition policy, and spent six months at Johns Hopkins University in the USA as an exchange student attending courses covering topics such as econometrics, game theory and mathematical economics. She completed a one-year internship at Oxera between her Bachelor's and Master's degrees focusing mainly on the digital, energy and payment sectors.

Selected professional experience

- Economic advice in the context of a merger in the veterinary sector (2022–)
- Estimation of cartel damages in the Italian school cleaning industry (2021–)
- Economic advice in the context of an antitrust litigation in the sports betting industry in the UK (2021–)
- Economic and financial assessment of a non-EU competition authority mergers decision in the telecoms industry in the context of an international arbitration case in front of ICSID (2022)

- Economic and financial assessment of an alleged infringement of Article 101 in the immunoglobulin industry (2021)
